🏀 Safe Exam Browser	News About+ Alliance+ Download+ Windows+ macOS+ IOS+ Support+	
	Windows Legacy	
	Safe Exam Browser 2.4.1 for Windows	
	Safe Exam Browser 2.4.1 for Windows 7, 8.1 and 10	
	Download from GitHub project site.	
	SEB 2.4.1 for Windows is a maintenance release, which can be used if the refractored, more modern version SEB 3.0.1 misses a feature you need. SEB 2.4.1 fixes an issue which was reported to happen when using the SEB-Moode Deeper Integration (available by default in Moode's 3 and as 5 uppin of Moode's 3 and 3.6.)	
	Please note our new update policy: We will only support the latest SEB version and will remove all older SEB versions after a grace period. Only with updated SEB versions you can achieve the best possible security and stability of easiessments. Before asking any support questions or reporting a policy, install the latest SEP version and try to reproduce the issue with the most recent version. We can't answer questions anymore when the SEB version fit methoded or when you don't confirm you tried if the current version.	
	New in SEB 2.4.1:	
	Fixed save when the old browser window stayed open while reconfiguring with set(s) link, together with the Fixed xite     copen diads	
	New since SEB 2.4:	
	<ul> <li>Config Key feature, hanh checksum value to verify settings used by SEB. The Config Key can be generated automatically by a compatible exam system, begine vith the SEB config for leader of an exam. At SEB versions supporting the Config Key generate the same key, as long as the same SEB config for leader of an exam. At SEB versions supporting the Config Key generate the same key, as long as the same SEB config for leader of the same same same same same same same exam session/caucity and config classical same same stating endpring a session (caucity session/caucity setting) after an exam session/was statied.</li> <li>Now TLS 1.2 is supported for downloading, setting setting same same same same same same same same</li></ul>	
	See release notes for all changes.	
	Other features:
